VISION® BLINDS

— ULTIMATE CURB APPEAL —

Our popular, contemporary window shade that looks as striking from the outside of the house as it does from inside.

Vision® blinds feature two layers of fabric in alternating stripes of translucent and opaque. The back fabric moves independently of the front layer allowing the stripes to glide past each other creating an open and closed effect. This allows you to control the levels of light and privacy to suit your needs.

A wow blind needs stunning fabric and our Vision® collection offers just that. Natural and sumptuous tonal textures, subtle metallic shimmers and blackout options, make these blinds perfect for any room in the home.

Suitable for all size windows, Vision blinds are easy to adjust and are great for controlling the light filtering into the room, especially glare. In one continual movement the blind can be raised for a clear view outside or fully closed for maximum privacy.

For smooth operation you have the choice of chain control or convenient motorisation.

Please note: Blockout fabric does not create a fully blackout blind, there will be lightstrike at the edge of the blind between the fabric vanes

Lucca White

Our circular Vision® bottom bars incorporate self-centralsing patented technology that helps keep fabric clear from obstructions to avoid fraying.

Stylish cassettes, in 70mm or 40mm, and matching bottom bars in a range of metallic and plain colours add a high-end finish to your Vision® blind. See the accessories page of this brochure for the colours.

ROMAN PANEL BLINDS

— CLASSIC NAME, MODERN OPERATION —

An alternative to traditional soft cloth, this innovative system and streamlined design, offers chain or motorised operation.

STYLE TIP

Need a bedroom blind?
Look at our blackout fabrics, they let less light in and enhance your privacy.

When open the large panels of fabric stack neatly behind one another allowing maximum light to enter the room. Using the slim wand, slide the panels into a closed position, this creates a unique fabric screen that provides light control and privacy.

Inspired by minimalism, the track is super slim in design to subtly blend in and being a fully bespoke system you have the choice between the 3, 4 or 5 channel track and side or split draw operation to perfectly suit your interior.

For an eclectic flair mix patterns or textures with a complementary (or contrasting!) plain fabric.
